Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, line 5, the phrase "or other flexible sheet material" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "or other flexible sheet material"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 4, 11, and 14 are rejected under 35 U.S.C. 102(e) as being anticipated by Miska, U. S. Patent 6,718,676.

3. With respect to claims 1 and 11, a presentation apparatus for photographs comprising: a single sheet of material 60 having pre-determined edges b) a plurality of opposing tabs 62A and 62B cut into and inset from the edges of the sheet of material, wherein the tags adapted for holding flexible side panels 66a and 66b in a flexed and

curved position under the tabs on each side of the sheet of material 60 in an horizontal orientation. In addition, the distance between the opposing tabs is shorter than the length of the edges of side panels.

4. With respect to claims 4 and 14, the rectangular sheet is adapted to correspond to rectangular photographs mounted within the apparatus.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 2, 3, 10, 12, 13, and 20 rejected under 35 U.S.C. 103(a) as being unpatentable over Miska in view of Tomsich, U. S. Patent 1,435,762. Tomsich teaches a frame strip 1 having cutout tag 6 for holding pictures 5. Tomsich also teaches that any number of strips may be connected together by inserting the lower tab extension 9 into the upper slot 8. In addition, Tomsich teaches an eyelet 10 for suspending the frame strip. It would have been obvious to one having ordinary skill in the art at the time this invention was made to construct the frame taught by Miska with lower tab and upper slots as taught by Tomsich to provide a means to interconnect the multiple frames together.

Allowable Subject Matter

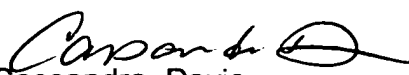

7. Claims 15-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Claims 5-9 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
